The radiator can be replaced by a do-it-yourselfer, but it will be a long and challenging repair. If your coolant system is overheating or leaking, the radiator might need to be replaced, but we recommend checking all of the hoses and their connections as well as the reservoir just to be sure.

**Aftermarket Replacement Automobile Radiators | 1A Auto**  
The cylinder head caps the engine block and covers the interior components of an internal combustion engine. Replacing this essential component requires basic shop tools and one to two hours of labor. Always consult your service manual for detailed instruction, but replacing a cylinder head generally follows these basic steps.
