This is a list of automobile engines developed and sold by the Suzuki Motor Corporation.Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977.Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

List of Suzuki engines - Wikipedia

An engine or motor is a machine designed to convert one form of energy into mechanical energy. Heat engines, like the internal combustion engine, burn a fuel to create heat which is then used to do work. Electric motors convert electrical energy into mechanical motion, pneumatic motors use compressed air, and clockwork motors in wind-up toys use elastic energy.

Engine - Wikipedia

A cylinder is best known as the central working part of the motor. This is how a piston travels from one end of a motor to the other. Different cars will have different engine cylinders such as 6- or 8-cylinder engines. The higher they are, the more quickly the pistons can travel.
