6 Tricks To Fix Excel 2016 Freezes When Copying & Pasting Issue

I got a new Windows 10 computer. Previously, I have used Excel 2016 with no issues. What I need to do is print a workbook in Excel (multiple worksheets) double sided. For example, sheets 1-3 are on one tab, while sheet 4 is on another. When I print, I would generally click, "print entire workbook" which then takes my document from 3 pages to 4.

Excel 2016 Workbook Printing Double Sided problem

At random times some actions trigger more than one core (made it to 30% a few times) even while "use all processors on this computer" is showing 36. I currently run data sets with millions of data points, and use Power Pivot etc. tools. It is extremely frustrating to see how poorly Excel utilizes the hardware. Office Professional 2016 - 64bit
