Small States in World Markets: Industrial Policy in Europe ...

"Small States in World Markets is the best discussion I have seen of the complex relationship between state institutions and civil society in advanced industrial democracies. The 'democratic corporatism' of the small states of Europe, so elegantly analyzed by Katzenstein, may offer a model for larger countries increasingly enmeshed in the world economy.

Small States in World Markets: Industrial Policy in Europe ...

The Small States Forum (SSF) is an important platform for high-level dialogue on how the World Bank Group (WBG) can help to address small states' special development needs. The SSF comprises 50 members, including 42 countries classified as small states according to the World Bank definition and eight countries with relatively larger populations that share similar challenges.

As a percentage of total world financial-services exports, small states contributed 0.1% in 2001, but 0.04% in 2008, when the crisis deepened. So increased exposure to financial markets may not be ...

The economics of small states - Big problems for little ...

If small states suffer from the disadvantages of smallness, they should be poorer on average than larger states. What do we actually find? In Figure 1, we show that, without controlling for any other characteristic, small states have the same range of per capita incomes as the rest of the countries in the world. Moreover, if we control for the location by continent of all countries, whether ...
