Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Teach Yourself VISUALLY Adobe Muse by Rob Huddleston

This book is a good introduction to Adobe Muse, but it has two shortcomings. As I have noted before with other books in the "Teach Yourself Visually" series, the full-screen illustrations are often not very informative when loaded two to a page in small windows.
